**OBJECTIVE:** To create awareness about biodiversity and importance of protecting endangered species and habitat.

## TOPIC: WILDLIFE MANAGEMENT

- Prepare a project file :

**INTRODUCTION:** India has a variety of wildlife. In the recent years, the demand for the conservation of wildlife has increased consistently. Prepare a project under the following sub-headings:

- What is the importance of biodiversity?
- Give reasons for destruction of wildlife.
- List the measures taken by the government to conserve wildlife.
- Mention the Laws enacted by the government to protect wildlife.

## SPECIFIC DETAILS:

- Collect information on National Parks, Wildlife Sanctuaries and Biosphere Reserves (2 each) in India.
- On the Political map of India mark and label the above mentioned places.
- Give the importance of National Parks and Sanctuaries in protecting animals.
- The project must contain pictures & articles related to the topic.

## CONCLUSION AND SUMMARY

- Why is it important to protect animals?
- Your suggestions on how can we bring awareness among the students.
- How are National parks, wildlife sanctuaries & Bio reserves different from each other?
