Q1. Read the following passage carefully and answer the questions that follow –

A long time ago, people didn't sleep in beds. Ten thousand years ago, people probably slept on leaves and animal furs. Long ago in Egypt, people ate, slept, and talked to friends in bed. Over 3,000 years ago, King Tut of Egypt had a beautiful bed made of wood and gold! But *common* people in Egypt slept on beds of grass and leaves. In the 16th *century*, in the 1500's, people piled bird feathers 6or straw on rope webs. Later, people made *mattresses* by stuffing feathers inside large cotton bags. Louis 14th, king of France from 1643 until 1715, had 413 beds. He liked to talk to his friends and do his work in bed. He liked beautiful beds. In 1865, people started to put springs under their mattress to make it more *flexible.*. This would make it bend and flex when the sleeper moved. By the 1930's, most beds had springs. About 100 years after people started to put springs under their mattress, the modern waterbed was *invented*. Today there are different kinds of beds. Some people have waterbeds. Some sleep on mats. Others sleep on foam mattresses or airbeds.

Q2. Read the following poem carefully and answer the questions that follow –

INDIAN WEAVERS
Weavers, weaving at break of day,
Why do you weave a garment so gay?
Blue as the wing of a bluebird wild,
We weave the robes of a new-born child.
Weavers, weaving at fall of night,
Why do you weave a garment so bright?
Like the plumes of a peacock, purple and green,
We weave the marriage-veils of a queen.
Weavers, weaving solemn and still,
What do you weave in the moonlight chill?

White as a feather and white as a cloud,
We weave a dead man's funeral shroud.
                         -Sarojini Naidu
